Clean Water

- One way to help conserve fresh water is by utilizing beneficial reuse water
- Many of the municipal systems in Sussex County utilize various filtration methods which produce water which is almost drinkable
- Developers and institutions benefit from utilizing reclaimed water for irrigation
 - Lower cost irrigation
 - Added nutrients
 - Less need for land for RIBS (Rapid Infiltration Basins)

Municipal Elections and State Voter Registration List

- SB 233 – passed Senate; now in House
- HB 146 – Introduced in House last year
- Require municipalities to use State Voter Registration list for all municipal elections
- Implementation for municipal elections on or after January 1, 2024

Municipalities Voluntarily using State Voter Registration System

- 12 as of January 2021
- 5 additional since January 2021 (42% growth in one year)
- More municipalities considering voluntary use
- All of them have populations of 1600 or more

Issues

- Based on assumptions that all municipalities:
 - Have uniform voter eligibility requirements
 - Require all voters to register for municipal elections
- Assumes that municipal voter registration laws create widespread confusion for residents

Issues (continued)

- Bills will create “overwhelming” burden on municipalities, especially smaller ones
- List provided by Department of Elections contains ALL registered voters in the municipality’s zip code
- Municipality must sift through and identify residents
- If non-residents permitted to vote, residents must be separated from non-residents and separate list created

Thoughts

- Municipalities should remove unnecessary obstacles to voting
- Voter Registration Systems should be designed to meet needs of individual municipalities
- Municipalities should not be forced to adopt a system that does not make voting easier for its citizens and creates unnecessary work
- Use of State's Voter Registration List should continue to be voluntary
